INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF AGTHIA GROUP PJSC

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the consolidated financial statements of Agthia Group PJSC (the "Company") and its subsidiaries (together referred to as the "Group"), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS Accounting Standards) (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the applicable requirements of Abu Dhabi Accountability Authority ("ADAA") Chairman Resolution No. 88 of 2021 Regarding financial statements Audit Standards for the Subject Entities. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the other ethical requirements that are relevant to our audit of the Group's consolidated financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF AGTHIA GROUP PJSC (continued)

Key Audit Matters (continued)

Key audit matter	How our audit addressed the key audit matter
<p>Carrying value of goodwill <i>Refer to note 3 and note 8 of the consolidated financial statements.</i></p>	
<p>As of 31 December 2023, the carrying value of goodwill amounted to AED 1,859 million, or 28% of total assets, as disclosed in Note 8.</p> <p>In accordance with IAS 36 Impairment of Assets, an entity is required to test goodwill acquired in a business combination for impairment at least annually irrespective of whether there is any indication of impairment.</p> <p>Goodwill is monitored by management at the level of cash-generating units ("CGUs"). Management carried out an impairment exercise as at 31 December 2023 in respect of goodwill allocated to each CGU by determining a recoverable amount based on value-in-use derived from a discounted cash flow model, which was based on the most recent formal business plan prepared by the Group's management.</p> <p>An impairment is recognized on the consolidated statement of financial position when the recoverable amount is less than the net carrying amount in accordance with IAS 36, as described in Note 3 to the consolidated financial statements. The determination of the recoverable amount is mainly based on discounted future cash flows.</p> <p>We considered the impairment of goodwill to be a key audit matter, given the method for determining the recoverable amount and the significance of the account in the Group's consolidated financial statements. In addition, the recoverable amounts are based on the use of significant assumptions, estimates or assessments made by management, in particular future cash flow projections, the estimate of the discount rates and long-term growth rates.</p>	<p>We have familiarized ourselves with the process implemented by the Group to determine the recoverable amounts of goodwill allocated to Cash-Generating Units (CGU). Our work consisted of:</p> <ul style="list-style-type: none"> (i) evaluating the controls over the Group's testing of goodwill for impairment to determine if they had been appropriately designed and implemented; (ii) assessing the principles and methods used for determining the recoverable amounts of the CGU to which the goodwill is allocated and assessing that the methods used are in accordance with the requirements of IAS 36; (iii) reconciling the net carrying amount of the goodwill allocated to the CGU tested with the Group's accounting records; (iv) engaging our valuation specialists to review management's discounted cash flow models and to assess the discount and growth rates applied by benchmarking against independent data; (v) substantiating the results of sensitivity analyses carried out by management by comparing them to those realized by us; (vi) verifying the arithmetical accuracy of the valuations used by the Group. <p>We have also assessed the disclosures in the consolidated financial statements relating to this matter against the requirements of IFRSs.</p>

**INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF AGTHIA GROUP PJSC (continued)**

Other Information

The Board of Directors' and Management are responsible for the other information. The other information comprises the Annual Report 2023 and Management Discussion and Analysis, which will be made available to us after the auditor's report date. The other information does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we will read the Annual Report 2023, if we conclude that there is a material misstatement therein, we will be required to communicate the matter to those charged with governance and consider whether a reportable irregularity exists in terms of the auditing standards, which must be reported.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs and the applicable provisions of the articles of association of the Company and the UAE Federal Decree Law No. (32) of 2021, and for such internal control as management determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the applicable requirements of ADAA Chairman's Resolution No. 88 of 2021 Regarding financial statements Audit Standards for the Subject Entities will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

**INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF AGTHIA GROUP PJSC (continued)**

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

As part of an audit in accordance with ISAs and the applicable requirements of ADAA Chairman's Resolution No. 88 of 2021 Regarding financial statements Audit Standards for the Subject Entities, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosure are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law and regulations preclude public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF AGTHIA GROUP PJSC (continued)

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by the UAE Decree Federal Law No. (32) of 2021, we report for the year ended 31 December 2023 that:

- we have obtained all the information we considered necessary for the purposes of our audit;
- the consolidated financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Decree Law No. (32) of 2021;
- the Group has maintained proper books of account;
- Note 1 and 7 to the consolidated financial statements disclose the shares purchased by the Group during the financial year ended 31 December 2023;
- note 1 to the consolidated financial statements of the Group discloses social contributions made during the financial year ended 31 December 2023;
- note 12 to the consolidated financial statements discloses the material related party transactions, balances, and the terms under which they were conducted; and
- based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Company has contravened during the financial year ended 31 December 2023 any of the applicable provisions of the UAE Federal Decree Law No. (32) of 2021 or of its Articles of Association which would materially affect its activities or its consolidated financial position as at 31 December 2023.

Pursuant to the requirements of Article 5 of Abu Dhabi Accountability Authority (“ADAA”) Chairman Resolution No. 88 of 2021 regarding the examination of internal financial controls over financial reporting, we have been engaged to perform assurance engagement to provide a reasonable assurance report on the effectiveness of internal financial controls over financial reporting for Agthia Group PJSC, excluding a subsidiary, but not on the consolidated financial statements of the Group.

Further, as required by the ADAA Chairman Resolution No. 88 of 2021 regarding financial statements Audit Standards for the Subject Entities, except for above, we report, in connection with our audit of the financial statements for the year ended 31 December 2023, that nothing has come to our attention that causes us to believe that the Group has not complied, in all material respects, with any of the provisions of the following laws, regulations and circulars as applicable, which would materially affect its activities or the consolidated financial statements as at 31 December 2023:

- (i) its Article of Association; and
- (ii) relevant provisions of the applicable laws, resolutions and circulars that have an impact on the Subject Entity's Consolidated financial statements.

The accompanying notes form an integral part of these consolidated financial statements.

**Notes to the consolidated financial statements
for the year ended 31 December 2023**

1 General information

Agthia Group PJSC (“the Company”) was incorporated as a Public Joint Stock Company pursuant to the Ministerial Resolution No. 324 for 2004 in the Emirate of Abu Dhabi. General Holding Corporation PJSC (SENAAT) owns 62.9% of the Company’s shares. Pursuant to Law No (02) of 2018 and Executive Council Resolution No. (33) of 2020, SENAAT became wholly owned by Abu Dhabi Development Holding Company “Public Joint Stock Company” (ADQ) which is wholly owned by the Government of Abu Dhabi.

Principal activities of the Company and its subsidiaries (together referred to as the “Group”) are to establish, invest, trade and operate companies and businesses that are involved in the food and beverage sector.

The registered office of the Company is at Al Reem Island, Sky Towers, 17th Floor, P.O. Box 37725, Abu Dhabi, United Arab Emirates.

The Group made social contributions amounting to AED 659 thousand during the year ended 31 December 2023 (2022: AED 654 thousand).

Principal activities, country of incorporation and operation, and ownership interest of the Company in its sizable subsidiaries are set out below:

Name of the subsidiary	Place of incorporation and operation	Legal ownership interest %		Beneficial ownership interest (%)		Principal activities
		2023	2022	2023	2022	
Grand Mills Company PJSC (Agri business division)	UAE	100	100	100	100	Production and sale of flour and animal feed.
Al Ain Food and Beverages PJSC (Al Ain Water)	UAE	100	100	100	100	Production and sale of bottled water, flavored water, juices, yogurt, tomato paste, frozen vegetables, frozen baked products and trading products.
Agthia Group Egypt LLC (Agthia Egypt)	Egypt	100	100	100	100	Processing and sale of tomato paste, chilli paste, fruit concentrate and frozen vegetables.
Al Bayan Purification and Potable Water LLC (Al Bayan)	UAE	100	100	100	100	Production, bottling and sale of bottled water.
Delta Alagthia for Manufacturing Company Limited (Delta)	KSA	100	100	100	100	Production, bottling and sale of bottled water.
Al Rammah National for General Trading and Contracting Company WLL (Al Rammah)	Kuwait	50	50	50	50	Production, bottling and sale of bottled water.
Al Foah Company LLC (Foah)	UAE	100	100	100	100	Sourcing, processing and trading of dates related products
Al Faysal Bakery and Sweets Company WLL (Al Faysal)	Kuwait	100	100	100	100	Manufacturing and trading in bakery and foodstuff
Al Nabil Food Industries LLC (Al Nabil)	Jordan	50	80	80	80	Manufacturing and trading in processed protein food products

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

1 General information (continued)

Name of the subsidiary	Place of incorporation and operation	Legal ownership interest (%)		Beneficial ownership interest (%)		Principal activities
		2023	2022	2023	2022	
Ismailia Agricultural and Industrial Investment (Furat) (Atyab)	Egypt	75.02	75.02	75.02	75.02	Manufacturing and trading in processed protein food products
Mediterranean Confectionery Company Limited (BMB) *	KSA	100	100	80	80	Trading of foodstuff and bakery products.
Baklawa Made Better Investments LLC (BMB) *	UAE	100	100	80	80	Manufacturing and trading of sweets and snacking items.
A.U.F. Egypt for Manufacturing and Distribution of Nuts S.A.E. (Abu Auf)	Egypt	60	60	60	60	Manufacturing and trading of healthy snacks, nuts and coffee.

* Represents the Group beneficial ownership after excluding the economic interest of the management party. Agthia Group legally owns 100% of these companies issued share capital.

2 Application of new and revised International Financial Reporting Standards (IFRS)

2.1 New and revised IFRSs applied with no material effect on the consolidated financial statements

The following new and revised IFRSs, which became effective for annual periods beginning on or after 1 January 2023, have been adopted in these consolidated financial statements. The application of these revised IFRSs has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

IFRS 17 Insurance Contracts (including the June 2020 and December 2021 Amendments to IFRS 17)	<p>The Group has adopted IFRS 17 and the related amendments for the first time in the current year. IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts and supersedes IFRS 4 Insurance Contracts.</p> <p>IFRS 17 outlines a general model, which is modified for insurance contracts with direct participation features, described as the variable fee approach. The general model is simplified if certain criteria are met by measuring the liability for remaining coverage using the premium allocation approach. The general model uses current assumptions to estimate the amount, timing and uncertainty of future cash flows and it explicitly measures the cost of that uncertainty. It takes into account market interest rates and the impact of policyholders' options and guarantees.</p> <p>The Group does not have any contracts that meet the definition of an insurance contract under IFRS 17.</p>
---	---

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

2.1 New and revised IFRSs applied with no material effect on the consolidated financial statements (continued)

Amendments to IAS 1
Presentation of
Financial Statements
and IFRS Practice
Statement 2 Making
Materiality Judgements
- Disclosure of
Accounting Policies

The Group has adopted the amendments to IAS 1 for the first time in the current year. The amendments change the requirements in IAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term ‘significant accounting policies’ with ‘material accounting policy information’. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The supporting paragraphs in IAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.

The IASB has also developed guidance and examples to explain and demonstrate the application of the ‘four-step materiality process’ described in IFRS Practice Statement 2.

Amendments to IAS 12
Income Taxes—
Deferred Tax related to
Assets and Liabilities
arising from a Single
Transaction

The Group has adopted the amendments to IAS 12 for the first time in the current year. The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences. Depending on the applicable tax law, equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting profit nor taxable profit.

Following the amendments to IAS 12, an entity is required to recognise the related deferred tax asset and liability, with the recognition of any deferred tax asset being subject to the recoverability criteria in IAS 12.

The Group has adopted the amendments to IAS 12 for the first time in the current year. The IASB amends the scope of IAS 12 to clarify that the Standard applies to income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the OECD, including tax law that implements qualified domestic minimum top up taxes described in those rules.

The amendments introduce a temporary exception to the accounting requirements for deferred taxes in IAS 12, so that an entity would neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

2.1 New and revised IFRSs applied with no material effect on the consolidated financial statements (continued)

Amendments to IAS 12
Income Taxes—
Deferred Tax related to
Assets and Liabilities
arising from a Single
Transaction - continued

Following the amendments, the Group is required to disclose that it has applied the exception and to disclose separately its current tax expense (income) related to Pillar Two income taxes.

The Group has adopted the amendments included in the Annual Improvements to IFRS Accounting Standards 2018-2020 Cycle for the first time in the current year. The Annual Improvements include amendments to four standards.

Amendments to IAS 8
Accounting Policies,
Changes in Accounting
Estimates and Errors—
Definition of
Accounting Estimates

The Group has adopted the amendments to IAS 8 for the first time in the current year. The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. The definition of a change in accounting estimates was deleted.

2.2 New and amended IFRSs in issue but not yet effective and not early adopted

The Group has not yet applied the following new and revised IFRSs that have been issued but are not yet effective:

New and revised IFRSs

Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures—Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

**Effective for
annual periods
beginning on or after**

Effective date not yet decided

The amendments to IFRS 10 and IAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognised in the parent’s profit or loss only to the extent of the unrelated investors’ interests in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognised in the former parent’s profit or loss only to the extent of the unrelated investors’ interests in the new associate or joint venture.

The effective date of the amendments has yet to be set by the IASB; however, earlier application of the amendments is permitted. The directors of the parent company anticipate that the application of these amendments may have an impact on the Group’s consolidated financial statements in future periods should such transactions arise.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

2.2 New and amended IFRSs in issue but not yet effective and not early adopted (continued)

New and revised IFRSs

**Effective for
annual periods
beginning on or after**

Amendments to IAS 1 Presentation of Financial Statements—Classification of Liabilities as Current or Non-current

1 January 2024

The amendments to IAS 1 published in January 2020 affect only the presentation of liabilities as current or noncurrent in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of ‘settlement’ to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are applied retrospectively for annual periods beginning on or after 1 January 2024, with early application permitted. The IASB has aligned the effective date with the 2022 amendments to IAS 1. If an entity applies the 2020 amendments for an earlier period, it is also required to apply the 2022 amendments early.

The directors of the Group anticipate that the application of these amendments may have an impact on the Group's consolidated financial statements in future periods.

Amendments to IAS 1 Presentation of Financial Statements—Non-current Liabilities with Covenants

1 January 2024

The amendments specify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date (and therefore must be considered in assessing the classification of the liability as current or noncurrent). Such covenants affect whether the right exists at the end of the reporting period, even if compliance with the covenant is assessed only after the reporting date (e.g. a covenant based on the entity's financial position at the reporting date that is assessed for compliance only after the reporting date).

The IASB also specifies that the right to defer settlement of a liability for at least twelve months after the reporting date is not affected if an entity only has to comply with a covenant after the reporting period. However, if the entity's right to defer settlement of a liability is subject to the entity complying with covenants within twelve months after the reporting period, an entity discloses information that enables users of financial statements to understand the risk of the liabilities becoming repayable within twelve months after the reporting period. This would include information about the covenants (including the nature of the covenants and when the entity is required to comply with them), the carrying amount of related liabilities and facts and circumstances, if any, that indicate that the entity may have difficulties complying with the covenants.

The amendments are applied retrospectively for annual reporting periods beginning on or after 1 January 2024. Earlier application of the amendments is permitted. If an entity applies the amendments for an earlier period, it is also required to apply the 2020 amendments early.

The directors of the Group anticipate that the application of these amendments may have an impact on the Group's consolidated financial statements in future periods.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

2.2 New and amended IFRSs in issue but not yet effective and not early adopted (continued)

New and revised IFRSs

**Effective for
annual periods
beginning on or after**

Amendments to IAS 1 Presentation of Financial Statements—Non-current Liabilities with Covenants

1 January 2024

The amendments specify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date (and therefore must be considered in assessing the classification of the liability as current or noncurrent). Such covenants affect whether the right exists at the end of the reporting period, even if compliance with the covenant is assessed only after the reporting date (e.g. a covenant based on the entity's financial position at the reporting date that is assessed for compliance only after the reporting date).

The IASB also specifies that the right to defer settlement of a liability for at least twelve months after the reporting date is not affected if an entity only has to comply with a covenant after the reporting period. However, if the entity's right to defer settlement of a liability is subject to the entity complying with covenants within twelve months after the reporting period, an entity discloses information that enables users of financial statements to understand the risk of the liabilities becoming repayable within twelve months after the reporting period. This would include information about the covenants (including the nature of the covenants and when the entity is required to comply with them), the carrying amount of related liabilities and facts and circumstances, if any, that indicate that the entity may have difficulties complying with the covenants.

The amendments are applied retrospectively for annual reporting periods beginning on or after 1 January 2024. Earlier application of the amendments is permitted. If an entity applies the amendments for an earlier period, it is also required to apply the 2020 amendments early.

The directors of the Group anticipate that the application of these amendments may have an impact on the Group's consolidated financial statements in future periods.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

2.2 New and amended IFRSs in issue but not yet effective and not early adopted (continued)

<i>New and revised IFRSs</i>	Effective for annual periods beginning on or after
<i>Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures—Supplier Finance Arrangements</i>	1 January 2024

The amendments add a disclosure objective to IAS 7 stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows. In addition, IFRS 7 was amended to add supplier finance arrangements as an example within the requirements to disclose information about an entity's exposure to concentration of liquidity risk.

The term 'supplier finance arrangements' is not defined. Instead, the amendments describe the characteristics of an arrangement for which an entity would be required to provide the information.

To meet the disclosure objective, an entity will be required to disclose in aggregate for its supplier finance arrangements:

- The terms and conditions of the arrangements
- The carrying amount, and associated line items presented in the entity's statement of financial position, of the liabilities that are part of the arrangements
- The carrying amount, and associated line items for which the suppliers have already received payment from the finance providers
- Ranges of payment due dates for both those financial liabilities that are part of a supplier finance arrangement and comparable trade payables that are not part of a supplier finance arrangement
- Liquidity risk information

The amendments, which contain specific transition reliefs for the first annual reporting period in which an entity applies the amendments, are applicable for annual reporting periods beginning on or after 1 January 2024. Earlier application is permitted.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

2.2 New and amended IFRSs in issue but not yet effective and not early adopted (continued)

<u>New and revised IFRSs</u>	<u>Effective for annual periods beginning on or after</u>
------------------------------	---

Amendment to IFRS 16 Leases—Lease Liability in a Sale and Leaseback

1 January 2024

The amendments to IFRS 16 add subsequent measurement requirements for sale and leaseback transactions that satisfy the requirements in IFRS 15 to be accounted for as a sale. The amendments require the seller-lessee to determine ‘lease payments’ or ‘revised lease payments’ such that the seller-lessee does not recognise a gain or loss that relates to the right of use retained by the seller-lessee, after the commencement date.

The amendments do not affect the gain or loss recognised by the seller-lessee relating to the partial or full termination of a lease. Without these new requirements, a seller-lessee may have recognised a gain on the right of use it retains solely because of a remeasurement of the lease liability (for example, following a lease modification or change in the lease term) applying the general requirements in IFRS 16. This could have been particularly the case in a leaseback that includes variable lease payments that do not depend on an index or rate.

The amendments are effective for annual reporting periods beginning on or after 1 January 2024. Earlier application is permitted. If a seller-lessee applies the amendments for an earlier period, it is required to disclose that fact.

A seller-lessee applies the amendments retrospectively in accordance with IAS 8 to sale and leaseback transactions entered into after the date of initial application, which is defined as the beginning of the annual reporting period in which the entity first applied IFRS 16.

Lack of exchangeability - Amendments to IAS 21

1 January 2025

In August 2023, the Board issued Lack of Exchangeability (Amendments to IAS 21). The amendment to IAS 21 specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments will be effective for annual reporting periods beginning on or after 1 January 2025. Early adoption is permitted, but will need to be disclosed. When applying the amendments, an entity cannot restate comparative information.

On 26 June 2023, the International Sustainability Standards Board (ISSB) published first two IFRS Sustainability Disclosure Standards at the IFRS Foundation Conference 2023:

- **IFRS S1** *General Requirements for Disclosure of Sustainability-related Financial Information* - IFRS S1 sets out overall requirements with the objective to require an entity to disclose information about its sustainability-related risks and opportunities that is useful to the primary users of general purpose financial reports in making decisions relating to providing resources to the entity.
- **IFRS S2** *Climate-related Disclosures* - IFRS S2 sets out the requirements for identifying, measuring and disclosing information about climate-related risks and opportunities that is useful to primary users of general purpose financial reports in making decisions relating to providing resources to the entity.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Application of new and revised International Financial Reporting Standards (IFRS) (continued)****2.2 New and amended IFRSs in issue but not yet effective and not early adopted (continued)**

Subject to adoption by the local jurisdiction, both Standards are effective for annual periods beginning on or after 1 January 2024, with substantial transitional reliefs to allow preparers more time to align reporting of sustainability related financial disclosures and financial statements.

Management anticipates that these new standards, interpretations, and amendments will be adopted in the Group's consolidated financial statements as and when they are applicable and adoption of these new standards and amendments may have no material impact on the consolidated financial statements of the Group in the period of initial application.

3 Material accounting policies information**Statement of compliance**

These consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS Accounting Standards) (IFRS) and comply with the Articles of Association of the Company, as amended, and wherever applicable, with the UAE Decree Federal Law No. (32) of 2021.

Basis of preparation

These consolidated financial statements are presented in UAE Dirhams (AED), rounded to the nearest thousands, which is the functional currency of the Group.

These consolidated financial statements have been prepared on the historical cost basis, unless otherwise stated.

Basis of consolidation

These consolidated financial statements incorporate the financial statements of the Company and its subsidiaries.

IFRS 10 governs the basis for consolidation where it establishes a single control model that applies to all entities including special purpose entities or structured entities.

The definition of control under IFRS 10 is that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all the following three criteria must be met, including:

- (a) the investor has power over an investee;
- (b) the investor has exposure to, or rights, to variable returns from its involvement with the investee; and
- (c) the investor has the ability to use its power over the investee to affect the amount of the investor's returns.

Subsidiaries

Subsidiaries are investees that are controlled by the Group. The Group controls the investee if it meets the control criteria. The Group reassesses whether it has control if, there are changes to one or more of the elements of control. This includes circumstances in which protective rights held become substantive and lead to the Group having power over an investee. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Basis of consolidation (continued)

Non-controlling interests (NCI)

NCI are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the consolidated statement of profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Business combination

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets acquired, equity instruments issued and liabilities incurred or assumed at the date of exchange, together with the fair value of any contingent consideration payable.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the consolidated statement of profit or loss.

Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. Gains or losses on disposals of non-controlling interests are also recorded in the consolidated statement of changes in equity.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Group's executive management.

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Group's executive management to make decisions about resources to be allocated to the segment and assess its performance, and for which financial information is available (note 37).

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Foreign currency

(a) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit or loss within “finance expense”.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the consolidated statement of profit or loss within “finance expense”.

(b) Group companies

The results and financial position of all the Group subsidiaries (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the Group’s functional and presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each statement of financial position presented are translated at the closing rate prevailing at the date of the consolidated statement of financial position;
- (ii) income and expenses for each statement of profit or loss are translated at the rate prevailing on the date of the transaction; and
- (iii) all resulting exchange differences are recognised in the consolidated statement of other comprehensive income.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition or construction of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the consolidated statement of profit or loss during the financial period in which they are incurred.

Freehold land is not depreciated though it is subject to impairment testing. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

Buildings	20-40 years
Plant and equipment	2-20 years
Motor vehicles	4-8 years
Software	4-8 years
Furniture and fixtures	4-8 years

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Property, plant and equipment (continued)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see note 3 "impairment of non-financial assets"). Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'other income' in the consolidated statement of profit or loss.

Capital work in progress

The Group capitalises all costs relating to the construction of property, plant and equipment as capital work in progress, up to the date of completion and commissioning of the assets.

These costs are then transferred from capital work in progress to the appropriate asset class upon completion and commissioning and are depreciated over their useful economic lives from the date of such completion and commissioning.

Goodwill and Intangible assets

Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition.

Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Calculations are performed based on the expected cash flows of the relevant cash generating units and discounting them at an appropriate discount rate, the determination of which requires the exercise of judgement.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose, identified according to operating segments.

Acquired intangible assets

Intangible assets acquired separately are measured initially at fair value which reflects market expectations of the probability that future economic benefits embodied in the asset will flow to the Group.

Intangible assets with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Based on an analysis of all the relevant factors for premium brand names, there is no foreseeable limit to the period over which it is expected to generate net cash inflows for the Group and is therefore considered to have an indefinite useful life. Intangible assets with indefinite useful lives are not amortised but tested for impairment annually or more frequently if the events and circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level.

The useful life of an intangible asset with an indefinite useful life is reviewed annually to determine whether the useful life assessment continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit or loss when the asset is derecognised. Useful lives of intangible assets are stated below.

Brand names	25 years - Indefinite useful life
Customer relationships	10-12 years

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Impairment of non-financial assets

Assets that have an indefinite useful life – for example, goodwill or intangible assets– are not subject to amortisation and are tested annually for impairment. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined using the weighted average method. Cost of inventories includes expenditures incurred in acquiring the inventories, production or conversion cost and other costs incurred in bringing them to their existing location and condition. In case of manufactured inventories cost includes an appropriate share of production overheads based on normal operating capacity. It excludes borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

Cash and bank balances

In the consolidated statement of cash flows, cash and cash equivalents include cash on hand, cash at banks, and deposits held at call with banks with original maturities of not more than three months adjusted for bank overdrafts and restricted cash.

In the consolidated statement of financial position, cash and bank balances include cash on hand, cash at banks, deposits held at call with banks, and restricted cash.

Bank overdrafts are shown within current bank borrowings.

Share capital and share premium

Ordinary shares are classified as equity. Share premium related to ordinary shares is classified as equity.

Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated statement of profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is recognised in the consolidated statement of profit or loss over the period of loan.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Bonus and long-term incentive plans

The Group recognises the liability for bonuses and long-term incentives in the consolidated statement of profit and loss on an accrued basis. The benefits for the management are subject to board's approval and are linked to business performance.

Defined contribution plan

Monthly pension contributions are made in respect of UAE national employees, who are covered by the Law No. 2 of 2000. The pension fund is administered by the Government of Abu Dhabi, Department of Finance, represented by the Abu Dhabi Retirement Pensions and Benefits Fund. Pension is accounted for in accordance with the local and regulatory requirements for non-UAE GCC national employees.

Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group currently operates an unfunded scheme for defined benefits in accordance with the applicable provisions of the UAE Federal Labour Law and is based on periods of cumulative service and levels of employees' final basic salaries. The Group's net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods discounted to determine its present value. Any unrecognised past service costs are deducted. The discount rate is the yield at the valuation date on US AA-rated corporate bonds, which in the absence of a deep market in corporate bonds within the UAE is the relevant proxy market as determined by the Group.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When benefits of the plan are improved, the portion of the increased benefit related to past service by employees is recognised in the profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the consolidated statement of profit or loss. The Group recognises all actuarial gains and losses arising from defined benefit plans in the consolidated statement of other comprehensive income and all expenses related to defined benefit plans within the consolidated statement of the profit or loss.

Provisions

Provisions for claims are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required and settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Finance income and finance expenses

Finance income comprises interest income on call deposits and gains on derivative financial instruments. Interest income is recognised as it accrues, using the effective interest method.

Finance expense comprises interest expenses on borrowings, interest expenses on lease liabilities, and foreign exchange results. All borrowing costs are recognised in the consolidated statement of profit or loss using the effective interest method.

Dividends

Dividends are recognised as a liability in the Group's consolidated financial statements in the period in which the dividend is approved by the Group's shareholders.

Zakat and foreign income tax

The Group's operations in the Kingdom of Saudi Arabia is subject to Zakat. Zakat is provided for in accordance with General Authority of Zakat and Tax ("GAZT") regulations.

Income tax for overseas subsidiaries operating within taxable jurisdiction is provided for in accordance with the relevant income tax regulations of the countries of incorporation. Adjustments arising from final Zakat and Foreign income tax assessments are recorded in the period in which such assessments are made.

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax assets / liabilities

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated statement of financial position and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences and unused tax losses can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference and unused tax losses arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the way the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Earnings per share

The Group presents earnings per share data for its shares. Earnings per share is calculated by dividing the profit or loss attributable to shareholders of the Company by the weighted average number of shares outstanding during the year.

Revenue recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with customers and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a product or service to a customer.

Sale of goods

The Group's contracts with customers for the sale of goods generally include one performance obligation. The Group accounts for that revenue at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods.

Some contracts for the sale of goods provide customers with several considerations including a right of return and volume rebates. Rights of return and volume rebates give rise to variable consideration. The variable consideration is estimated at contract inception and constrained until the associated uncertainty is subsequently resolved.

Right of return

When a contract provides a customer with a right to return the goods within a specified period, the consideration received from the customer is variable because the contract allows the customer to return the products, if any. The Group uses the expected value method to estimate the goods that will be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The Group applies the requirements in IFRS 15 on constraining estimates of variable consideration to determine the amount of variable consideration that can be included in the transaction price.

Volume rebates

The Group provides retrospective volume rebates to selected customers and products as per the terms specified in the contract. Rebates are offset against amounts payable by the customer on subsequent purchases. Retrospective volume rebates give rise to variable consideration. To estimate the variable consideration to which it will be entitled, the Group applied the method to each customer as per the agreed upon rebate scheme that best predicts the amount of variable consideration. The Group then applies the requirements on constraining estimates of variable consideration. Accordingly, the Group recognised contract liabilities for the expected future rebates.

Considerations paid or payable to customers

The Group pays exclusivity fees, display fees, remodeling fees, opening fees, and listing and other fees to certain customers for the provision of various services. The Group assesses whether these services are distinct when compared to the goods sold to the customers. The distinct or non-distinct services are then recognised as selling and distribution expenses or netted against revenue, respectively.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Leases

The Group as lessee

The Group assesses whether contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease

The lease liability is presented as a separate line item in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The Group did not make any such adjustments during the period presented.

The right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use of asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use of assets are presented as a separate line in the consolidated statement of financial position.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Leases (continued)

The Group as lessee (continued)

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for an identified impairment loss as described in the 'Property, plant and equipment' policy.

The Group as lessor

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Financial instruments

All financial assets are recognised and derecognised on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss (FVTPL). Transaction costs directly attributable to the acquisition of financial assets classified as at FVTPL are recognised immediately in the consolidated profit or loss.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification and measurement - Financial assets

Financial assets at amortised cost

Financial assets held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest (SPPI) are measured at amortised cost. A gain or loss on a debt investment subsequently measured at amortised cost and not part of a hedging relationship is recognised in the consolidated statement of profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Classification and measurement - Financial assets

Financial assets at FVTPL

Financial assets at FVTPL are:

- assets with contractual cash flows that are not SPPI; or/and
- assets that are held in a business model other than held to collect contractual cash flows or held to collect and sell; or
- assets designated at FVTPL using the fair value option.

These assets are measured at fair value, with any gains/losses arising on remeasurement recognised in consolidated statement of profit or loss.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Financial instruments (continued)

Impairment

Loss allowance for financial investments measured at amortised costs are deducted from gross carrying amount of assets.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue costs or effort. This includes both quantitative and qualitative information and analysis, based on Group's historical experience and informed credit assessment and including forward-looking information. Forward-looking information considered includes the future prospects of the industries in which the Group's receivables operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

A financial instrument is determined to have low credit risk if:

- The financial instrument has a low risk of default;
- The debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Financial instruments (continued)

Impairment (continued)

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due. For certain categories of financial assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio as well as observable changes in national or local economic conditions that correlate with default on receivables.

Measurement of ECL

The Group employs statistical models for ECL calculations for its trade and other receivables, due from related parties and cash and bank balances. ECLs are a probability-weighted estimate of credit losses. The parameters used in calculation are derived from the Group's internally developed statistical models and other historical data and adjusted to reflect forward-looking information. The Group assess impairment loss on its trade and other receivables portfolio using an expected loss measurement basis using the simplified approach.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Trade payables and accruals and lease liabilities, classified as 'financial liabilities', are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis, except for short term liabilities when the recognition of interest is immaterial.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Financial instruments (continued)

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, options and interest rate swaps.

Derivatives are recognised initially at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in consolidated statement of profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability. Derivatives are not offset in the financial statements unless the Group has both legal right and intention to offset. A derivative is presented as a non current asset or a non current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Hedge accounting

The Group designates certain derivatives as hedging instruments in respect of foreign currency risk and interest rate risk in fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Group adjusts the hedge ratio of the hedging relationship (i.e. rebalances the hedge) so that it meets the qualifying criteria again.

The Group designates the full change in the fair value of a forward contract (i.e. including the forward elements) as the hedging instrument for all of its hedging relationships involving forward contracts.

Cash flow hedges

The effective portion of changes in the fair value of derivatives and other qualifying hedging instruments that are designated and qualify as cash flow hedges is recognised in consolidated statement of other comprehensive income and accumulated under the heading of cash flow hedging reserve, limited to the cumulative change in fair value of the hedged item from inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in consolidated statement of profit or loss, and is included in the 'other income' line item.

Amounts previously recognised in consolidated statement of other comprehensive income and accumulated in equity are reclassified to consolidated statement of profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non financial asset or a non financial liability, the gains and losses previously recognised in consolidated statement of other comprehensive income and accumulated in equity are removed from equity and included in the initial measurement of the cost of the non financial asset or non financial liability. This transfer does not affect other comprehensive income. Furthermore, if the Group expects that some or all of the loss accumulated in the cash flow hedging reserve will not be recovered in the future, that amount is immediately reclassified to consolidated statement of profit or loss.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Financial instruments (continued)

Hedge accounting (continued)

Cash flow hedges(continued)

The Group discontinues hedge accounting only when the hedging relationship (or a part thereof) ceases to meet the qualifying criteria (after rebalancing, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised. The discontinuation is accounted for prospectively. Any gain or loss recognized in other comprehensive income and accumulated in cash flow hedge reserve at that time remains in equity and is reclassified to profit or loss when the forecast transaction occurs. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in cash flow hedge reserve is reclassified immediately to consolidated statement of profit or loss.

Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with IFRS 5.

Under the equity method, an investment in an associate or a joint venture is recognised initially in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of IAS 36 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Material accounting policies information (continued)

Investments in associates and joint ventures (continued)

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture. When the Group retains an interest in the former associate or a joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IFRS 9. The difference between the carrying amount of the associate or a joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or a joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the associate or joint venture is disposed of.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

The Group applies IFRS 9, including the impairment requirements, to long-term interests in an associate or joint venture to which the equity method is not applied and which form part of the net investment in the investee. Furthermore, in applying IFRS 9 to long-term interests, the Group does not take into account adjustments to their carrying amount required by IAS 28 (i.e. adjustments to the carrying amount of long-term interests arising from the allocation of losses of the investee or assessment of impairment in accordance with IAS 28).

Government grants

Grants from Abu Dhabi Government are provided to the Group to finance some of the operational and capital expenditures of the Group and are recognised at their nominal value where there is reasonable assurance that grants will be received. The nominal value is deemed to be the cost to the donor. There are no explicit conditions attached to the government grants received except that these should be utilised by the Group for the purpose these are provided for.

Any surplus of government grants which is not utilised in the year it is received by the Group, is deferred to the subsequent period. This deferred government grant is included in non-current and current liabilities. Any excess expenditure over government grants received is recorded as balance receivable from government in the consolidated statement of financial position.

Grants related to assets

Non-monetary government grants related to assets are recognised at the carrying amount of the assets and presented as deferred government grant in the consolidated statement of financial position. The grant is amortised over the life of the depreciable assets and is offset with the relevant depreciation expense of the assets.

Grants related to operations

Other government grants, which relate to operational expenditures, are recognised in consolidated statement of profit or loss over the periods necessary to match them with the costs that they are intended to compensate, on a systematic basis. Grants related to income are shown net of the related expenses when reporting these in profit or loss.

4 Accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the process of applying the Group's accounting policies (see note 3); management has made the following judgements and estimates which have a significant effect on the amounts of the Group assets and liabilities recognised in these consolidated financial statements.

Provision for expected credit losses of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer channels that have similar loss patterns (i.e. customer type and rating, and coverage by letters of guarantees).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the market, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables is within these consolidated financial statements (see note 3, note 11 and note 36 "Financial Instruments")

Useful lives of property, plant and equipment

Management assigns useful lives and residual values to items of property, plant and equipment based on the intended use of the assets and the expected economic lives of those assets. Subsequent changes in circumstances such as technological advances or prospective utilisation of the assets concerned could result in the actual useful lives or residual values differing from the initial estimates.

Useful lives of intangible assets

During the period, the Company reassessed the useful lives of its sizable intangible assets which resulted in a change for key brand name useful lives from finite to indefinite effective 1 January 2023.

Useful life of those brand names is estimated based on the period over which these brand names are expected to generate the cash inflows to the Group. Such estimation is based on a collective assessment of industry practice, internal technical evaluation and experience with similar intangible assets. The useful life of each asset is reviewed annually and updated if expectations differ from previous estimates due to technical or commercial obsolescence and legal or other limits on the use of the intangible asset.

Allowance for slow moving and obsolete inventories

Management assesses loss (if any) on items of inventory on account of slow moving and obsolescence on a regular basis. In determining whether provision for obsolescence should be recorded in profit or loss, the Group makes judgements as to whether there is any observable data indicating that there is a future consumption of the item. Based on the factors, management has identified inventory items as slow moving and obsolete to calculate the allowance for slow moving and obsolete inventories.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Accounting estimates and judgements (continued)***Impairment of non-current assets*

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs of disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the performance of the assets of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill, property, plant and equipment, right of use assets and other intangibles with indefinite useful lives recognised by the Group. The key assumptions used to determine the recoverable amount for the different CGUs, including a sensitivity analysis, are disclosed and further explained within these consolidated financial statements (notes 8 and 9).

Determination of acquisition date in a business combination

One of the critical steps in a business combination is to identify the acquisition date. As per IFRS 3 "Business Combinations", the acquisition date is defined as the date on which the acquirer obtains control of the acquiree. The acquisition date is critical because it determines when the acquirer recognizes and measures the consideration transferred, the assets acquired, and liabilities assumed. The acquiree's results are consolidated from this date. In a business combination affected by a sale and purchase agreement, the acquisition date is generally the specified closing or completion date. It is often readily apparent from the structure of the business combination and the terms of the sale and purchase agreement (if applicable) but this is not always the case.

IFRS 3 explains that the date on which the acquirer obtains control of the acquiree is generally the date on which the acquirer legally transfers the consideration, acquires the assets, and assumes the liabilities of the acquiree - the closing date. However, the acquirer should consider all pertinent facts and circumstances in identifying the acquisition date, including the possibility that control is achieved on a date that is either earlier or later than the closing date.

During the year, the Group did not enter into any new business combination transaction. Management has considered all legal aspects of the sale and purchase agreements and the pertinent facts and circumstances around each transaction in order to determine the acquisition dates of this transaction in accordance with IFRS 3.

Fair value measurement of contingent considerations

Contingent considerations from business combinations, is valued at fair value at the acquisition date as part of the business combination. When the contingent liabilities meet the definition of a financial liability, it is subsequently remeasured to fair value at each reporting date. The determination of the fair value is based on detailed assessment of performance targets. The key assumptions take into consideration the probability of meeting each performance target and the discount factor.

Volume rebates

Sales rebates represent a significant aspect of revenue recognition process and involve estimating the amount of rebates that may be claimed by customers. These estimates are inherently subjective and are subject to change based on various factors, including customer behavior, market conditions, and historical rebate redemption patterns. Sales rebates are recognized as a reduction of revenue when the related sales occur. The estimation of sales rebates is based on historical experience, current contractual terms, and market conditions. Any changes in estimates related to sales rebates are recognized in the period in which the change occurs. Such changes are disclosed in the financial statements in accordance with the applicable accounting standards. Estimates related to sales rebates are subject to periodic review by management, involving a collaborative process between cross functional departments. The approval of such estimates involves key stakeholders to ensure alignment with business objectives.

Investment in associates

Investment in an associate represents 31% ownership interest in Kottouf & Hala Trading Co. a limited liability company registered in the Kingdom of Saudi Arabia. The Group acquired the associate in 2021 through the acquisition of BMB Group. The associate is accounted for using the equity method in these consolidated financial statements. The principal activity of the associate is trading in foodstuff and snacking products.

During the year, the Company invested an amount of AED 4,194 thousand representing 25% stake in Agthia Ventures Restricted Limited, a Restricted Scope Company registered in Abu Dhabi Global Market (ADGM), the associate is an investment fund for business start-ups with the aim of expanding the Group's innovation capacity and opening new markets. The associate is accounted for using the equity method in these consolidated financial statements.

Movement in investment in associates during the year is set out below:

	2023	2022
	AED'000	AED'000

	<hr/> <hr/>	<hr/> <hr/>

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

8 Goodwill (continued)

For the purpose of impairment testing, goodwill is allocated to the Group's Cash Generating Units ("CGUs") where the goodwill is monitored for internal management purposes. The aggregate carrying amount of goodwill allocated to each unit is as set out below:

	Country	2023 AED'000	2022 AED'000
Consumer business division (Atyab)	Egypt	425,401	425,401
Consumer business division (BMB)	UAE	359,338	359,338
Consumer business division (Abu Auf)	Egypt	334,204	334,204
Consumer business division (Al Nabil)	Jordan	264,092	264,092
Consumer business division (Foah)	UAE	102,465	102,465
Consumer business division (Al Faysal)	Kuwait	97,160	97,160
Consumer business division (Al Bayan)	UAE	92,864	92,864
Consumer business division (Delta)	KSA	87,597	87,597
Agri business division	UAE	61,855	61,855
Consumer business division (Al Ain Water)	UAE	31,131	31,131
Consumer business division (Agthia Turkey)	Turkey	2,486	2,486
		1,858,593	1,858,593

The recoverable amounts of Agri Business Division and Consumer Business Divisions CGUs were based on their values in use determined by management. The recoverable amounts of these CGUs were determined to be higher than their carrying amounts.

Values in use were determined by discounting the future cash flows generated from the continuing use of the units. Cash flows were projected based on past experience and the five-year business plan and terminal value approved by the management. CGUs related to the Group's recent acquisitions of Consumer business division (Abu Auf) is assumed to be similar to its carrying amount stated as at 31 December 2023 due to its recent acquisition and valuation.

Key assumptions used for the Group's CGUs impairment testing are set out below:

Anticipated annual revenue growth (%)

	2023	2022
Agri business division	2.8% - 5%	0.3% - 11.7%
Consumer business division (Al Ain Water)	4.3% - 9.2%	1.2% - 14.8%
Consumer business division (Agthia Turkey)	7.4% - 22.1%	4.2%-30.3%
Consumer business division (Al Bayan)	8.0% - 9.0%	6.3% - 9.7%
Consumer business division (Delta)	6.6% - 11.5%	4.9% - 13.8%
Consumer business division (Foah)	17.4% - 19.4%	5% - 11.7%
Consumer business division (Al Faysal)	2.0% - 4.7%	2.3% - 5.1%
Consumer business division (Al Nabil)	8.3% - 18.1%	10.8% - 19.6%
Consumer business division (BMB)	13.6% - 16.7%	0% - 36.8%
Consumer business division (Atyab)	2.1% - 17.0%	2.6% - 25.9%
Consumer business division (Abu Auf)*	4.5% - 19.8%	-

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

9 Intangible assets (continued)

Spring water rights is considered to have an indefinite life as per agreement terms, while licenses have been acquired with the option to renew at the end of the period at little or no cost allowing the Group to determine that these licenses have indefinite useful life. Upon acquisition of BMB Group and A.U.F. Egypt for Manufacturing and Distribution of Nuts S.A.E, the Group recognized their respective brand names which are considered to have an indefinite life. The Group is not aware of any material legal, regulatory, contractual, competitive, economic or other factor which could limit its useful life. Accordingly, spring water rights, indefinite useful lives brand names, licenses are not amortised.

During the period, the Group has reassessed the useful lives of the brand names acquired with the business combinations in prior years. The brand names are considered to have an indefinite useful life and are subject to impairment test annually and whenever there is an indication that the brand names may be impaired.

The Group estimated that based on the timeframe each of above brand has been in the market, the strength and establishment of each brand name and considering the useful life of brands in the identified comparable business combinations, the Group believes that these brand names have an indefinite useful life.

The carrying amount of those brand names with revised useful lives is AED 224,668 thousand. The amortisation expense charged to consolidated statement of profit or loss account during the prior year was AED 13,174 thousand. Had these brand names continued to have a finite useful life, the amortisation expense would have increased by AED 9,047 thousand in the consolidated statement of profit or loss.

For the purpose of impairment testing, values in use were determined by discounting the future cash flows generated from the continuing use of these units. Cash flows were projected based on experience to build a five-year business plan for spring water rights and license using the following key assumptions:

Anticipated annual revenue growth (%)

	2023	2022
Consumer business division (Agthia Turkey)	7.4% - 22.1%	4.2%-30.3%
Consumer business division (Foah)	17.4% - 19.4%	-
Consumer business division (Al Rammah)	2.0% - 4.7%	2.3% - 8%
Consumer business division (Al Faysal)	2.0% - 4.7%	2.3% - 5.1%
Consumer business division (Al Nabil)	8.3% - 18.1%	-
Consumer business division (BMB)	13.6% - 16.7%	-
Consumer business division (Atyab)	2.1% - 17.0%	-
Consumer business division (Abu Auf) *	4.5% - 19.8%	-

Discount rates (%)

	2023	2022
Consumer business division (Agthia Turkey)	11.09%	11.4%
Consumer business division (Foah)	8.44%	-
Consumer business division (Al Faysal)	8.29%	9.25%
Consumer business division (Al Rammah)	10.66%	10.66%
Consumer business division (Al Nabil)	10.86%	-
Consumer business division (BMB)	8.55%	-
Consumer business division (Atyab)	10.53%	-
Consumer business division (Abu Auf) *	10.51%	-

* Abu Auf was acquired near to the year end 31 December 2022 and accordingly was not subject to intangible assets impairment assessment exercise as at 31 December 2022.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

9 Intangible assets (continued)

Discount rates (%) (continued)

The values assigned to the key assumptions represent management's assessment of future trends in the food and beverage industry and are based on both external and internal sources.

Sensitivity analysis

The Group has conducted an analysis of the sensitivity of the impairment test to changes in the key assumptions used by 50 basis points to determine the recoverable amount for intangible assets. Management anticipates that no reasonably possible change in any of the key assumptions above would cause the carrying value of any of the above intangible assets to materially exceed its recoverable amount.

10 Inventories

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

11 Trade and other receivables (continued)

As at 31 December 2022:

	Gross receivables AED'000	ECL %	ECL provision AED'000
Not due	486,283	3.3%	15,995
0 – 90 Days	108,603	5.9%	6,354
91 – 180 Days	28,841	16.3%	4,705
181 – 270 Days	13,772	22.4%	3,089
271 – 360 Days	31,599	16.8%	5,308
361 Days and above	177,073	50.8%	89,891
	<hr/>		
	846,171	14.8%	125,342
	<hr/> <hr/>		<hr/> <hr/>

The Group recognises lifetime expected credit losses (ECL) for trade receivables using the simplified approach. To determine the expected credit losses all debtors were classified into five categories and ECL rate for each category was determined using a provision matrix:

- Category I – Government
- Category II – Municipalities
- Category III – Reprocessing / food service
- Category IV – Retail / distributors
- Category V – Others

These were adjusted for factors that are specific to the debtors and general economic conditions and an assessment of both the current as well as the forecast direction of the conditions at the reporting date, including time value of money, where appropriate.

12 Balances and transactions with related parties

The Group, in the ordinary course of business, entered into a variety of transactions at agreed terms and conditions, with companies, entities or individuals that fall within the definition of a related party as defined in IAS 24 Related Party Disclosures.

Parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the other party in making financial or operational decisions.

Related parties comprise major shareholders, key management personnel, Board of Directors and their related companies.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

12 Balances and transactions with related parties (continued)

a) Key management personnel compensation

Key management personnel compensation for the year is set out below:

	2023	2022
	AED'000	AED'000
Short term benefits	26,461	18,697
Long term benefits	7,152	3,866
	<hr/>	<hr/>
	33,613	22,563
	<hr/> <hr/>	<hr/> <hr/>

b) Amounts due from related parties

	2023	2022
	AED'000	AED'000
Dubai Cable Company (Private) Limited - affiliated company	35	164
Emirates Iron & Steel Company LLC – affiliated company	411	427
Abu Dhabi Development Holding Company (ADQ) – ultimate parent company	223	723
Kottouf & Hala Trading Co. – associate company	14,473	13,380
	<hr/>	<hr/>
	15,142	14,694
	<hr/> <hr/>	<hr/> <hr/>

d) Transactions with related parties

Transactions with related parties during the year were as follows:

	2023	2022
	AED'000	AED'000
Sales	84,270	85,379
	<hr/>	<hr/>
Expenses recharged	665	723
	<hr/>	<hr/>
Dividend received	3,936	7,375
	<hr/>	<hr/>

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

13 Cash and bank balances

	2023	2022
	AED'000	AED'000
Cash on hand	3,005	4,468
Current and savings accounts	305,876	292,826
	<hr/>	<hr/>
Cash and bank balances	308,881	297,294
Restricted cash	-	(24,936)
Bank overdrafts (note 16)	(31,173)	(51,237)
	<hr/>	<hr/>
Cash and cash equivalents in the consolidated statement of cash flows	277,708	221,121
	<hr/> <hr/>	<hr/> <hr/>
Cash and bank balances	308,881	297,294
Fixed deposits	321,077	745,208
	<hr/>	<hr/>
Cash and bank balances in the consolidated statement of financial position	629,958	1,042,502
	<hr/> <hr/>	<hr/> <hr/>

Fixed deposits are for a period not more than one year and not less than three months (2021: not more than one year and not less than three months). Interest is earned on these deposits at prevailing market rates, the carrying amounts of these assets approximate to their fair value.

Restricted cash represents amounts mainly set aside for payment of dividend distribution from 2009 to 2014. During the year, the Group has transferred the full amount to the Securities and Commodities Authority.

Balances with banks are assessed to have low credit risk of default. Accordingly, management estimates the loss allowance on balances with banks at the end of the reporting period to an amount equal to 12-month ECL. None of the balances with banks at the end of the reporting period are past due and taking into account the historical default experience and the current credit ratings of the bank, management anticipates that there is no impairment, and hence have not recorded any loss allowances on these balances.

14 Derivative financial instruments

During 2023, the Group entered into a floating to fixed interest rate swaps with corresponding banks to hedge the interest rate risk relating to a portion of the floating interest rates payable on its bank borrowings, with all critical terms matching. These derivatives contracts have been designated as cash flow hedge under IFRS 9. Below are the details of the derivatives:

<u>Currency</u>	<u>Notional Amount 2023 AED' 000</u>	<u>Notional Amount 2022 AED' 000</u>	<u>Maturity date</u>
USD	257,110	-	2028
USD	91,825	-	2028
USD	183,650	183,650	2028
USD	183,650	183,650	2028
USD	110,190	-	2028
USD	-	150,593	2027

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

14 Derivative financial instruments (continued)

Swaps currently in place cover approximately 66% of the variable loan principal outstanding. The fixed interest rate payable on the swap is 2.80% - 3.75% (2022: 2.85% - 3.15%), and the variable rate on both the swap and the loans is 3M SOFR (2022: 3M SOFR).

As at 31 December 2023, the fair value of the derivative financial instrument is as follows:

	2023		2022	
	AED' 000		AED' 000	
	Derivative financial assets	Derivative financial liabilities	Derivative financial assets	Derivative financial liabilities
Current portion	-	-	-	-
Non- current portion	5,605	7,733	668	446
	5,605	7,733	668	446
	5,605	7,733	668	446

The fair value movement of the derivatives of AED 2,128 thousand (2022: AED 222 thousand) is included under “finance cost” in the consolidated statement of profit or loss.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

18 Deferred government grant

The Government of Abu Dhabi provides an annual budget for capital expenditure in accordance with an approved budget. The capital grants are recorded as deferred government grants in the consolidated statement of financial position and classified as current and non-current liabilities.

	2023 AED'000	2022 AED'000
<i>Current portion</i>		
Unamortised government grants related to property, plant and equipment	11,878	9,362
<i>Non-current portion</i>		
Unamortised government grants related to property, plant and equipment	13,435	23,615
	<hr/> 25,313 <hr/>	<hr/> 32,977 <hr/>

19 Trade and other payables

	2023 AED'000	2022 AED'000
Trade payables	889,811	440,582
Accrued expenses	443,028	357,550
Advances and deposits	172,678	29,460
Unclaimed dividends (2009-2014)	-	24,936
Other payables	101,372	137,593
	<hr/> 1,606,889 <hr/>	<hr/> 990,121 <hr/>

20 Deferred taxation

The deferred income tax expense for the year ended 31 December 2023 of AED 42,641 thousand (31 December 2022: AED nil) relates to the initial recognition of a deferred tax liability in respect of Purchase Price Allocation (PPA) adjustments carried on the Group's consolidated statement of financial position and attributable to certain UAE-based Group entities. While the PPA adjustments relate to a corporate transaction completed in prior accounting periods, the deferred tax liability arises due to the introduction of the UAE CT Law in the UAE, and on the basis that the UAE-based entities to which those PPA adjustments are attributed should be subject to UAE CT in the future.

21 Share capital

Share capital includes issued and fully paid 791,577 thousand shares (31 December 2022: 791,577 thousand shares) at a par value of AED 1 each.

	2023 AED'000	2022 AED'000
Authorised share capital (Ordinary shares of AED 1 each)	1,200,000	1,200,000
	<hr/> 791,577 <hr/>	<hr/> 791,577 <hr/>

Share premium pertains to the additional shares issued in prior years with an aggregate principal amount of AED 843,674 thousand which resulted in share premium of AED 652,097 thousand.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

22 Legal reserve

In accordance with the UAE Federal Decree Law No. (32) of 2021 and the Company's Articles of Association, 10% of the profit for each year attributable to the owners of the Company is transferred to the legal reserve until this reserve equals 50% of the paid-up share capital. The legal reserve is restricted and not available for distribution.

23 Dividends

At the Annual General Meeting held on 17 April 2023, the shareholders' approved interim cash dividends of AED 65,305 thousand for the year ended 31 December 2022 which represents 8.25% of the issued share capital (at the Annual General Meeting held on 7 April 2022, the shareholders' approved interim cash dividends of AED 65,305 thousand for the year ended 31 December 2021 which represents 8.25% of the issued share capital).

At the Annual General Meeting held on 12 September 2023, the shareholders' approved interim cash dividends of AED 65,305 thousand for the six-month period ended 30 June 2023 which represents 8.25% of the issued share capital (at the Annual General Meeting held on 15 September 2022, the shareholders' approved interim cash dividends of AED 65,305 thousand for the six-month period ended 30 June 2022 which represents 8.25% of the issued share capital).

24 Revenue

Revenues for the year ended 31 December 2023 amounting to AED 4,561,210 thousand (year ended 31 December 2022: 4,067,394 thousand).

for the year ended 31 December 2023 (continued)**

32 Income tax and zakat expenses

The Group's operation in Egypt, Turkey, Jordan and Oman are subject to corporate taxation. Provision is made for taxes at rates enacted or substantively enacted at the consolidated statement of financial position date on taxable profits of overseas subsidiaries in accordance with the fiscal regulations of the countries in which they operate.

Further, the Group's operation in the Kingdom of Saudi Arabia is subject to Zakat. Zakat is provided in accordance with the Regulations of the General Authority of Zakat and Tax (GAZT) in the Kingdom of Saudi Arabia on accrual basis. The provision is charged to the consolidated statement of profit or loss. Differences, if any, resulting from the final assessments are adjusted in the year of their finalisation.

	2023	2022
	AED'000	AED'000
Income tax expense	39,022	27,793
Zakat expense	947	949
Deferred tax liability – goodwill temporary difference (note 20)	31,769	-
Deferred tax liability – intangible assets temporary difference (note 20)	10,872	-
	82,610	28,742

33 Basic and diluted earnings per share

	2023	2022
Profit for the year attributable to the Owners of the Company AED'000)	261,008	246,785
Weighted average number of ordinary shares in issue throughout the year ('000)	791,577	791,577
Basic and diluted earnings per share (AED)	0.330	0.312

Basic and diluted earnings per share are calculated by dividing the Group profit for the year attributable to the owners of the Company by the weighted average number of shares in issue throughout the year.

As of 31 December 2023 and 2022, the Company has not issued any instruments that have an impact on diluted earnings per share when exercised and accordingly diluted earnings per share are the same as basic earnings per share.

34 Contingent liabilities and capital commitments

	2023	2022
	AED'000	AED'000
Bank guarantees	30,276	20,744
Letters of credit	37,359	45,476
Capital commitments	64,951	30,371

Bank guarantees and letters of credits were issued in the normal course of business. These include deferred payment credit, performance bonds, tender bonds, deferred payment bills, inward bill and margin deposit guarantees.

35 Partly-owned subsidiaries

36 Financial instruments

Credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as at the reporting date is set out below:

	Notes	2023 AED'000	2022 AED'000
Trade receivables, net	11	734,717	720,829
Other receivables	11	82,120	103,402
Due from related parties	12	15,142	14,694
Cash at banks	13	626,958	1,038,034
		1,458,937	1,876,959
		1,458,937	1,876,959

The Group's credit risk is primarily attributable to its trade receivables. The amounts presented in the consolidated statement of financial position are net of allowances for expected credit losses as calculated using Expected Credit Loss approach based on lifetime expected credit losses using the Group's management prior experience and the current economic environment adjusted for forward looking factors. The Group has no significant concentration of credit risk, with overall exposure being spread over many customers.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses.

The Group ensures that it has sufficient cash on demand to meet expected operational and capital expenditures in accordance with the Group's working capital requirements, including servicing financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. Contractual maturities of the Group's financial liabilities as at the reporting date are set out below:

Amounts in AED'000	Carrying value	Contractual cash flows	Up to 1 year	1-2 years	2-5 years	More than 5 years
As at 31 December 2023						
Trade and other payables	1,606,889	1,606,889	1,606,889	-	-	-
Bank borrowings	1,550,099	1,718,873	390,894	55,215	1,243,906	28,858
Lease liabilities	108,452	114,097	40,003	41,690	21,038	11,366
	3,265,440	3,439,859	2,037,786	96,905	1,264,944	40,224
	3,265,440	3,439,859	2,037,786	96,905	1,264,944	40,224
As at 31 December 2022						
Trade and other payables	990,121	990,121	990,121	-	-	-
Bank borrowings	2,386,467	2,782,797	803,400	209,890	1,769,507	-
Lease liabilities	85,945	90,418	31,701	33,038	16,672	9,007
	3,462,533	3,863,336	1,825,222	242,928	1,786,179	9,007
	3,462,533	3,863,336	1,825,222	242,928	1,786,179	9,007

Market risk

Foreign currency risk

Currency risk is the risk that the value of the Group financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in currency that's not the Group's currency. The Group exposure to foreign currency risk is primarily limited to transactions in Turkish Lira ("TRY"), Kuwaiti Dinar ("KWD"), Egyptian Pounds ("EGP"), Euro ("EUR"), United State Dollars ("USD"), Omani Riyals ("OMR"), Jordanian Dinars ("JOD") and Saudi Riyals ("SAR").

Management anticipates that the Group's exposure to currency risk is limited as the Group's currency, JOD and SAR are pegged to USD. The fluctuation in exchange rates against TRY, KWD, EGP, Euro, and OMR are monitored on a continuous basis.

The following tables demonstrate the sensitivity to a reasonably possible change in significant foreign currency exchange rates exposure mainly denominated in EGP, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities. The Group's exposure to foreign currency changes for all other currencies is not material.

	Change in EGP rate	Effect on profit before tax AED'000
2023	- / + 5%	- / + 5,919
2022	- / + 5%	- / + 3,366

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's interest-bearing obligations with floating interest rates.

The Group manages its interest rate risk by entering into interest rate swaps arrangements, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. As at 31 December 2023, after taking into account the effect of interest rate swaps, approximately 53% of the Group's borrowings are at a fixed rate of interest (2022: 22%).

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase / (decrease) in basis points	Effect on profit before tax AED'000
2023	- / + 0.5%	- / + 3,618
2022	- / + 0.5%	- / + 9,343

Capital management

The Group's objectives for managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an efficient capital structure to optimise the cost of capital. In maintaining an appropriate capital structure and providing returns for shareholders in 2023, the Group provided returns to shareholders in the form of cash dividends for the year 2022 results, current details of which are included in the consolidated statement of changes in equity.

Fair value hierarchy

The Group measures financial instruments such as contingent considerations at fair value at each consolidated statement of financial position date and classified as level 3.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value hierarchy levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as priced) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

During the year, there were no transfers between fair value levels.

The Group's management considers that the fair values of its financial assets and financial liabilities that are not measured at fair value approximates to their carrying amounts as stated in the consolidated statement of financial position.

37 Segmental analysis

The Group has two reportable segments, as described below. Reportable segments offer different products and services and are managed separately because they require different technology and operational marketing strategies. For each of the strategic business units, the Group's executive management reviews internal management reports on at least a quarterly basis.

The following summary describes the operations in each of the Group's reportable segment:

Agri Business Division ("ABD")

- Flour and Animal Feed includes manufacturing and distribution of flour and animal feed.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

37 Segmental analysis (continued)

Consumer Business Division (“CBD”)

- Water and Food segment includes manufacturing, bottling, and distribution of drinking water, beverages, juices, dairy and trading products.
- Protein and Frozen Vegetables segment includes manufacturing, packaging, distribution and trading of tomato and chili paste, fruit concentrate, frozen vegetables and processed protein products.
- Snacks segment includes manufacturing, packaging, distribution of dates, sweets, baklava, chocolates, coffee, nuts and bakery products.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit, as included in the internal management reports data reviewed by the Group’s executive management. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

38 Contingent consideration

a) Ripplette Corp. and Mediterranean Confectionary Company Limited

On 31 August 2021, the Group Board of Directors' has approved a strategic acquisition of a 100% stake in Ripplette Corp. and Mediterranean Confectionary Company Limited (together "BMB") and subsequently obtained the control on 13 December 2021. BMB was launched in 2007 and has a large portfolio of confectionery and healthy food brands and distributes in more than 23 countries worldwide, including the UAE, Saudi Arabia, and USA. The acquisition has been accounted for using the acquisition method. The Group has entered into a management agreement with previous owners pursuant to the SPA to govern the terms of the management party's economic interest in BMB which equals to 20% of the issued share capital.

As part of the SPA dated 13 December 2021, part of the consideration was determined to be contingent, based on the settlement of certain tax liabilities regarding capital gains in Saudi Arabia. As at 31 December 2022, the fair value for the contingent consideration amounted to AED 26,464 thousand. During the year 2023, the Group has paid an amount of AED 24,937 thousand and released contingent liability fair value of AED 1,528 thousand.

b) Abu Auf Holding Netherlands B.V

On 14 July 2022, the Group Board of Directors' has approved a strategic acquisition of a 60% stake in Abu Auf Holding Netherlands B.V and its subsidiaries (together "Abu Auf") and subsequently obtained the control on 18 November 2022. Abu Auf was launched in 2010 and has a large portfolio of healthy snacks, nuts and coffee brands. The acquisition has been accounted for using the acquisition method. The Group has acquired Abu Auf to expand its existing customer base in Egypt and to empower the snacking segment.

As part of the SPA dated 14 July 2022 with the previous owners of Abu Auf, part of the consideration was determined to be contingent, based on the performance of the acquired entity. As at 31 December 2022, the fair value for the contingent considerations were amounted to AED 84,994 thousand given the performance indicators of Abu Auf. During the year 2023, the Group has paid an amount of AED 64,852 thousand and released contingent liability fair value of AED 16,900 thousand as a result of EGP devaluation.

39 Reclassification of comparative figures

Certain comparative figures for the year ended 31 December 2022 have been reclassified for consistency with the current year presentation. This reclassification had no effect on the reported results of the Group.

- (a) In the current year, Group's Management considered that the government compensation receivable falls within the category of other receivables and should be presented accordingly within the line item of trade and other receivables. Accordingly, the comparative figures of government compensation receivable for the year ended 31 December 2022 have been reclassified for consistency with the current year presentation.
- (b) To achieve better presentation, the Group's management presented changes in other provisions under the working capital changes as a separate line item in the consolidated statement of cash flows. Accordingly, the comparative figures of other provisions and trade and other payables for the year ended 31 December 2022 have been reclassified for consistency with the current year presentation.
- (c) To enhance the presentation quality, the Group's management subdivided the additions to property, plant, and equipment into cash and non-cash categories. Accordingly, the management reflected the non-cash additions as a distinct non-cash transaction in the consolidated statement of cash flows. As a result, the comparative figures reflecting changes in trade and other payables under the working capital changes for the year ended 31 December 2022 have been reclassified to maintain consistency with the current year's presentation.

The above reclassification incorporated in the consolidated financial statements is as required IAS 1 Presentation of financial statements.

Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)

Purchase of properties, plant, and equipment	(136,601)	19,268	(117,333)

40 Subsequent events

Subsequent to the reporting period, the Company's Board of Directors have approved the purchase of 10% shareholding owned by Tanmeya Energy B.V. (TCV) ("Seller" - minority shareholder) in Abu Auf Netherlands, for a consideration of AED 82,174 thousand (equivalent to USD 22,360 thousand). The completion of the transfer of shares from Seller to the Company will increase the ownership stake of the Company in Abu Auf Netherlands from 60% to 70%. Relevant agreements and execution of respective legal matters in respect of the purchase are still ongoing.

In order to streamline the corporate structure, the board has agreed to the proposed voluntary liquidation of multiple dormant subsidiaries of the Company which has no significant assets or liabilities and have not engaged with any commercial activities since incorporation. Furthermore, the Company will also commence the process of merging two wholly owned subsidiaries. None of the afore mentioned actions will result in any adverse or otherwise impact on the Group's financial or operational performance nor any significant change to its share price or capital structure.
